Next Aspect FAQs

Our intuitive and responsive FAQ Add-in is designed to enhance user experience by making it easier to search for answers to common questions. It helps organizations compile and categorize frequently asked questions, presenting them to users in a clear and comprehensible format.

With its clean and user-friendly interface, users or employees can quickly find relevant information when they need it. The organized grouping of questions and answers ensures that users can efficiently locate the information they seek.

BODACIOUS APP FEATURES

- Easy configurations for the SharePoint administrators.
- The app uses Modern development, which supports classic and modern pages.
- App properties are restricted to end users and can only be configured by Site Admins.
- Supports as a web part or Full-page app.
- The questions and answers can be mapped to **multiple categories**.
- The answers to the questions can be Enhanced Rich HTML Content.
- **Categorized search** – Search for questions and answers within the category.
- Manage FAQ option to create a new Categories & Questions.
- Responsive design for multiple device access.
- Ability to Activate or Inactivate categories or Q&A at any time to make it hidden from the regular users.
- Able to find the information within 1-2 clicks.
- Most simple, responsive UI with easy administration.
- The web part is provided with sample data for your reference.
- Supports on Multiple browsers like IE, Edge, Firefox, and Chrome.
- Supports multiple administrators to manage the web part properties.
- **Regular Updates**: Stay informed with the latest updates and announcements within the app.

APP BENEFITS

- Reduce support calls.
- Reduce emails from users requesting assistance on operations or procedures.
- Publishing the rules and procedures as a web page instead of providing a lengthy document.
- One FAQ for the entire organization by categorizing the questions.

SUPPORTED SHAREPOINT VERSIONS

- SharePoint Online.

CONFIGURATION

Once you have acquired the app from the SharePoint app store, the app will be installed. Once installed, please follow the steps below to configure the app.

Note: The app can be added as a web part and a full-page app.

- Once the app is added to the page or created as a full-page app, it will check for the current user role and proceed only if the current user is a Site Administrator.

Figure 1: App Start up page

After configuring the app, only administrators can see the settings icon for managing FAQs, categories, and activating licenses.

Admins to manage – For the initial setup of the web part, Site Administrator is required to add the web part and once the other admins are configured. They will also be able to Manage FAQs.

ADMIN SETTINGS FOR FAQ MANAGEMENT

The admin settings provide administrators with comprehensive tools to manage the Frequently Asked Questions (FAQs) section efficiently. Below is an overview of the key functionalities available to administrators:

Add New FAQ

- **Functionality:** Allows administrators to create new FAQ entries.

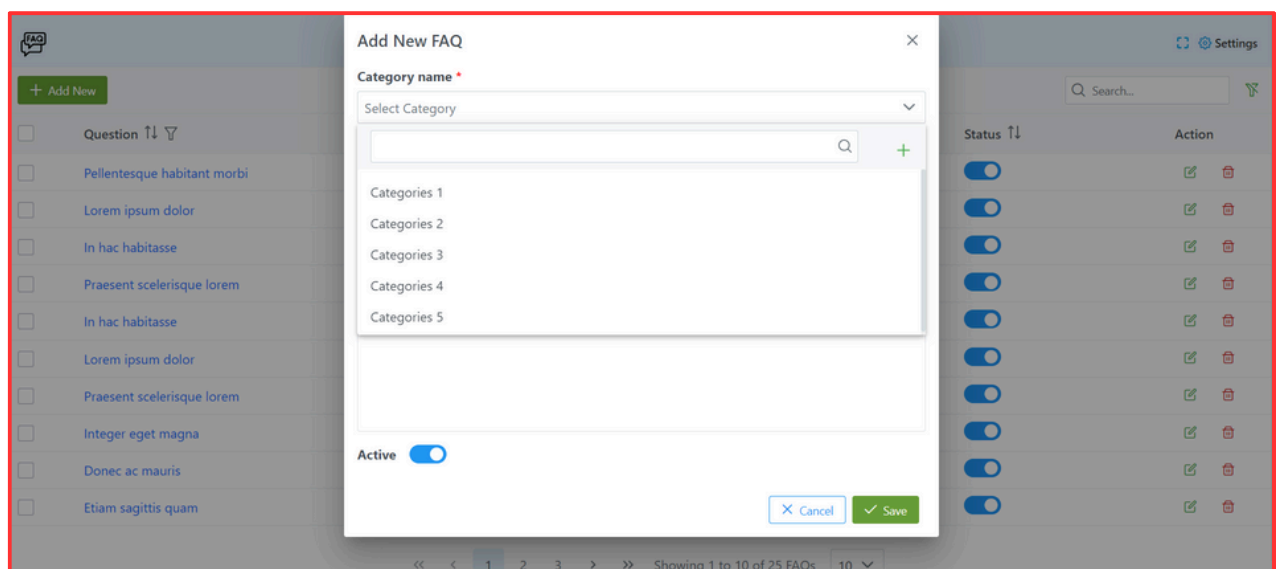

The screenshot shows the 'FAQ Management' interface. At the top left, there is a '+ Add New' button highlighted with a red box. Below it is a table with the following columns: Question, Category, Status, and Action. The table contains 10 rows of placeholder data. At the bottom, there is a pagination bar showing 'Showing 1 to 10 of 25 FAQs' and a dropdown menu set to '10'.

Question	Category	Status	Action
Pellentesque habitant morbi	Categories 1	On	✎ ✖
Lorem ipsum dolor	Categories 1	On	✎ ✖
In hac habitasse	Categories 1	On	✎ ✖
Praesent scelerisque lorem	Categories 1	On	✎ ✖
In hac habitasse	Categories 2	On	✎ ✖
Lorem ipsum dolor	Categories 2	On	✎ ✖
Praesent scelerisque lorem	Categories 3	On	✎ ✖
Integer eget magna	Categories 2	On	✎ ✖
Donec ac mauris	Categories 2	On	✎ ✖
Etiam sagittis quam	Categories 4	On	✎ ✖

Figure 3: Add New FAQ

- **Details:** Administrators can enter a question and provide a detailed answer. They can also assign the FAQ to a specific category, and set the visibility status.

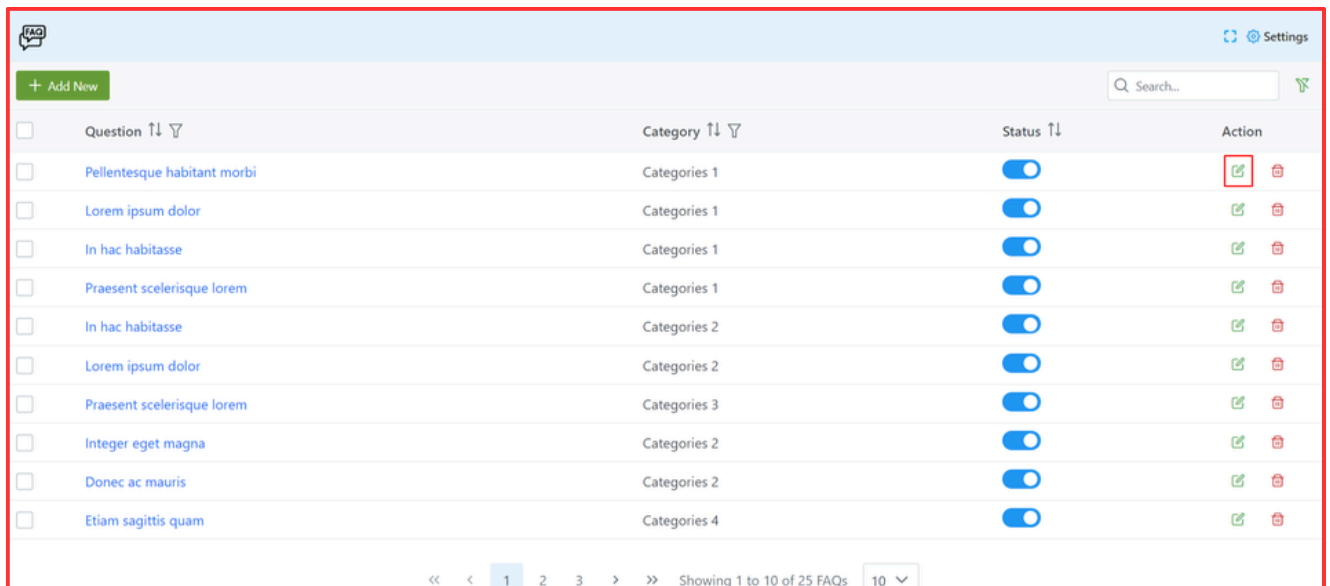

The screenshot shows the 'Add New FAQ' form overlaying the FAQ Management interface. The form has a 'Category name' field with a dropdown menu showing 'Select Category'. Below the dropdown is a search bar and a list of categories: Categories 1, Categories 2, Categories 3, Categories 4, and Categories 5. There is an 'Active' toggle switch set to 'On'. At the bottom right, there are 'Cancel' and 'Save' buttons.

Figure 4: Add New FAQ Form

Edit Existing FAQ

- **Functionality:** Enables administrators to update or modify existing FAQ entries.

The screenshot shows a web interface for managing FAQs. At the top, there is a header with a 'Settings' icon and a search bar. Below the header, there is a '+ Add New' button. The main content is a table with the following columns: 'Question', 'Category', 'Status', and 'Action'. The table contains 10 rows of data, each representing an FAQ entry. The first row is highlighted with a red box around the 'Action' column, which contains a green pencil icon for editing and a red trash icon for deleting. The table also includes pagination controls at the bottom, showing 'Showing 1 to 10 of 25 FAQs' and a dropdown for '10' items per page.

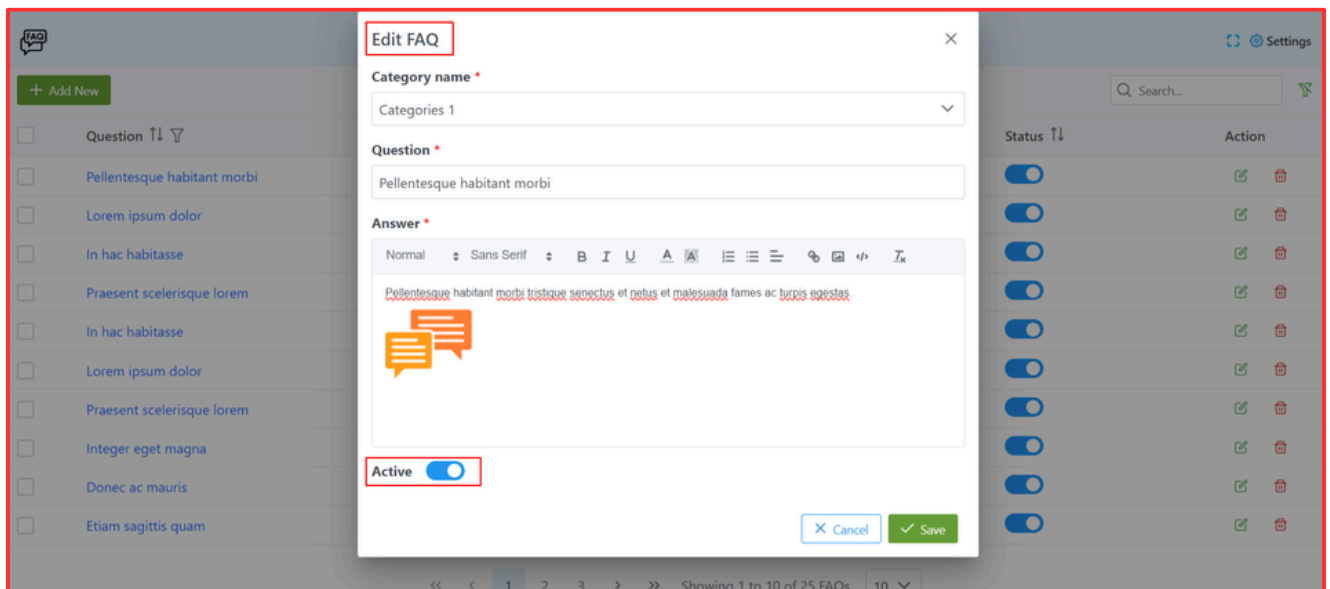

Question	Category	Status	Action
Pellentesque habitant morbi	Categories 1	<input checked="" type="checkbox"/>	 
Lorem ipsum dolor	Categories 1	<input checked="" type="checkbox"/>	 
In hac habitasse	Categories 1	<input checked="" type="checkbox"/>	 
Praesent scelerisque lorem	Categories 1	<input checked="" type="checkbox"/>	 
In hac habitasse	Categories 2	<input checked="" type="checkbox"/>	 
Lorem ipsum dolor	Categories 2	<input checked="" type="checkbox"/>	 
Praesent scelerisque lorem	Categories 3	<input checked="" type="checkbox"/>	 
Integer eget magna	Categories 2	<input checked="" type="checkbox"/>	 
Donec ac mauris	Categories 2	<input checked="" type="checkbox"/>	 
Etiam sagittis quam	Categories 4	<input checked="" type="checkbox"/>	 

Figure 5: Edit FAQ

- **Details:** Administrators can edit the question and answer text, change the category, and modify the visibility status.

The screenshot shows the 'Edit FAQ' modal form. The form has a title 'Edit FAQ' and a close button. It contains the following fields: 'Category name' (a dropdown menu with 'Categories 1' selected), 'Question' (a text input field with 'Pellentesque habitant morbi' entered), and 'Answer' (a rich text editor with 'Pellentesque habitant morbi tristique senectus et netus et malesuada fames ac turpis egestas.' entered). Below the text fields, there is an 'Active' toggle switch, which is currently turned on. At the bottom of the modal, there are 'Cancel' and 'Save' buttons. The background shows the same FAQ management interface as Figure 5, but it is dimmed.

Figure 6: Update FAQ Form

Delete FAQ

- **Functionality:** Provides the ability to remove outdated or irrelevant FAQs.

Figure 7: Delete FAQ

- **Details:** Administrators can permanently delete an FAQ. This helps in maintaining a clean and relevant FAQ section.

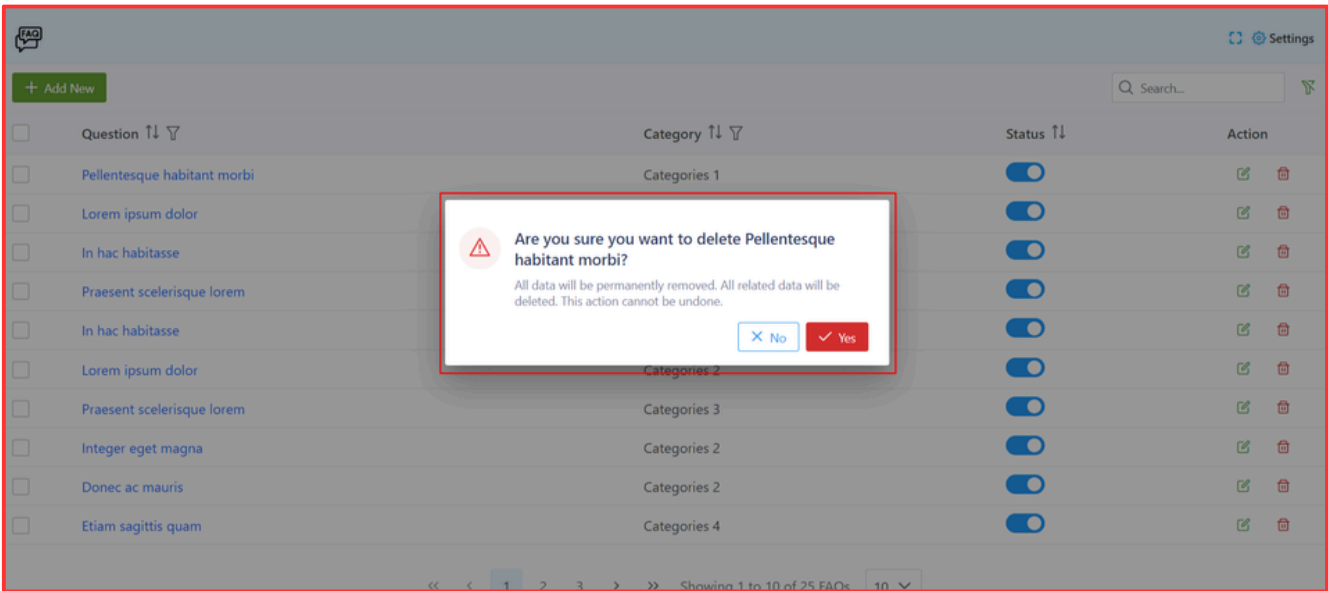

Figure 8: Confirm Dialog for Delete Selected FAQ

Delete All FAQs

- **Functionality:** Provides the ability to remove all FAQs at once.

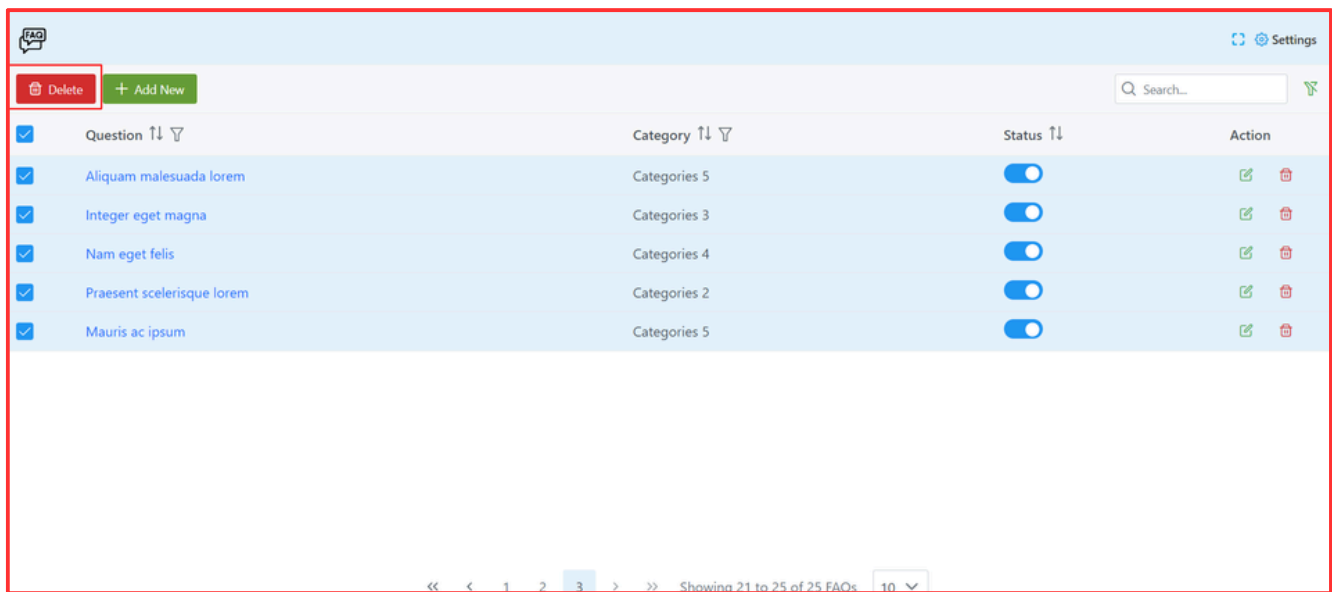

Figure 9: Delete All FAQs

- **Details:** Administrators can permanently delete all FAQs. This helps in maintaining a clean and relevant FAQ section.

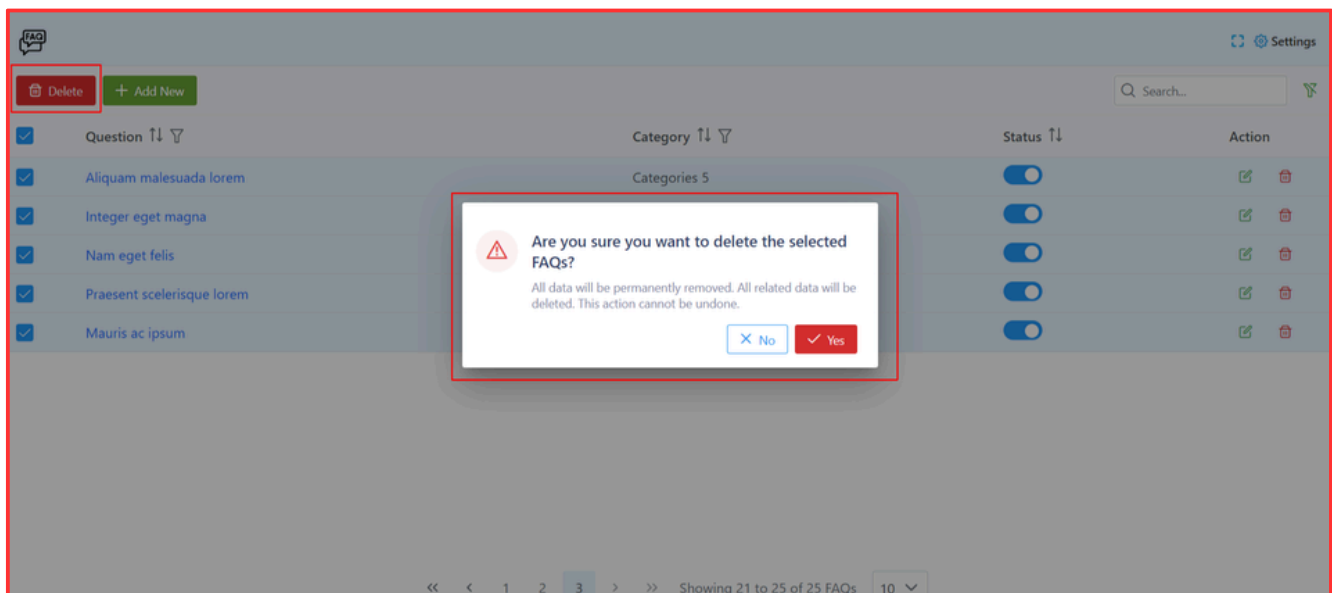

Figure 10: Confirm Dialog for Delete All Selected FAQs

Search and Filter FAQ

- **Functionality:** Facilitates quick location and management of specific FAQs.

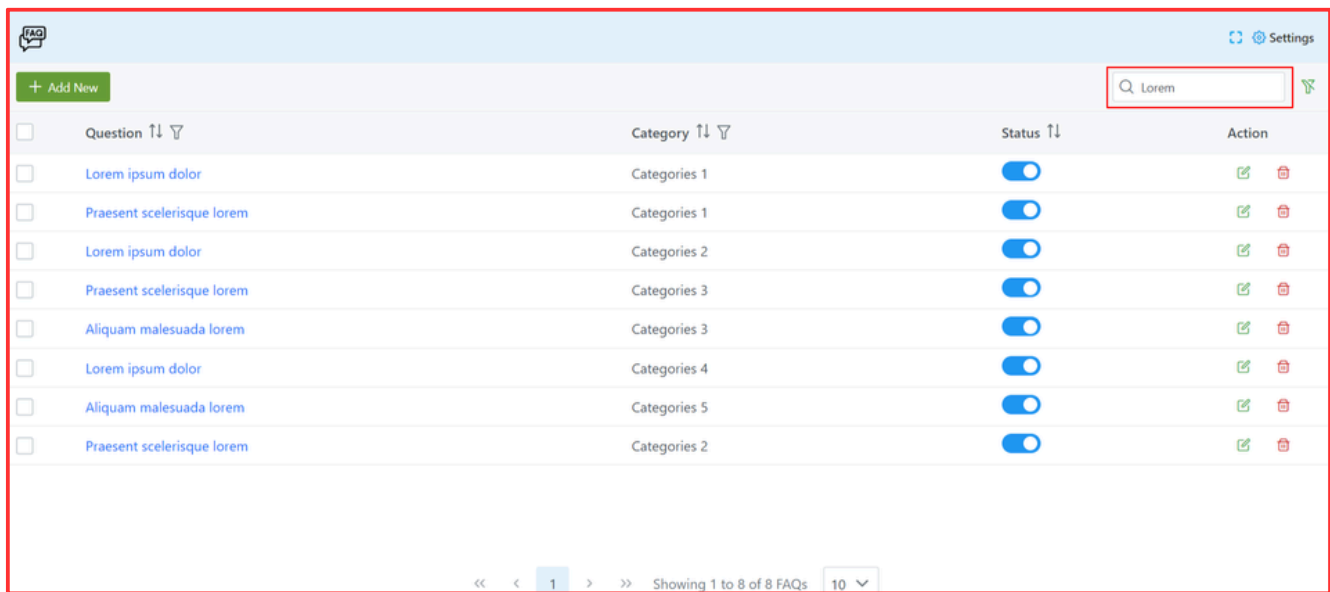

Figure 11: Global Search

- **Details:** Administrators can search for FAQs using keywords and apply filters based on Question, categories. This feature streamlines the management process.

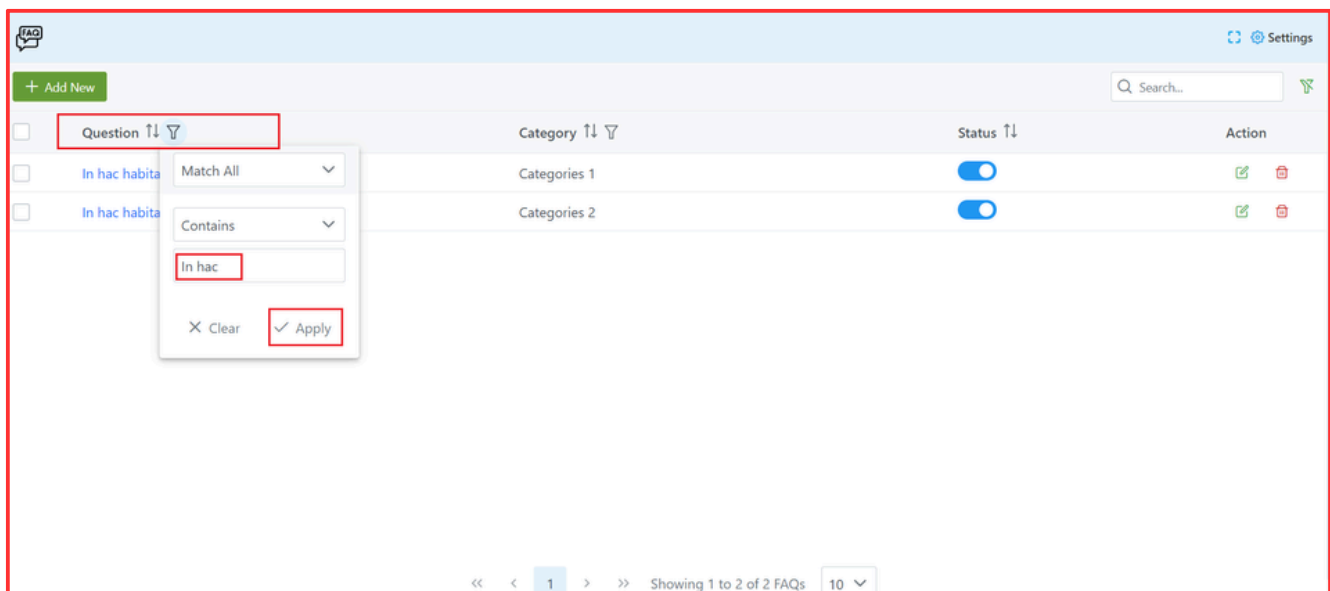

Figure 12: Filter FAQs Based on Question and Categories

ADMIN SETTINGS FOR CATEGORY MANAGEMENT

- **Functionality:** Enables the creation, editing, or deletion of FAQ categories.

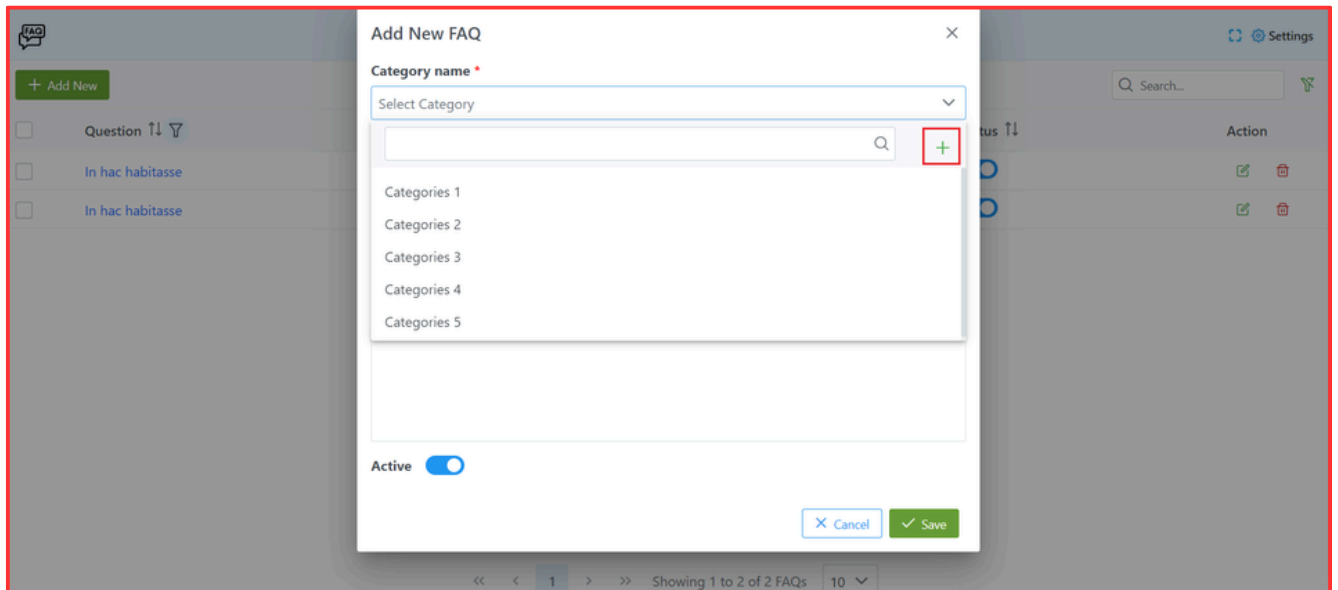

Figure 13: Add New Categories

- **Details:** Administrators can organize FAQs into categories for better navigation. Categories can be created, renamed, or removed as needed.
